

## Walk Jog or Run – Have a Lot of Fun

**The PETRA RaceRunner designed with very little rolling resistance and high stability provides the kind of free movement and independence that children and adult with restricted mobility rarely experience.**

**Therapy and basic mobility becomes fun and rewarding. For many RaceRunning becomes a sport and lifestyle.**

### **PETRA RaceRunner Anatomy**

- Long three wheeled base for stability and space for leg movements.
- Wide range of chest supports, saddles, posts and supportive parts secure comfort, stability and unrestricted movements.

- Steering damper and options for handlebar and arm support secure good running economy, control of maneuvers at speed and curves.
- The open rear frame and drop link saddle section make transferring easy for both ambulant users and wheelchair users.
- The many sizes of RaceRunners secure that there always is a size that will fit you.

### **Significant benefits of a well fitted RaceRunner**

- The rapid moving legs, tapping feet when running provide a full range of sensory impulses and challenge navigation skills. This stimulation improve neural network and brains efficiency.
- RaceRunning encourage stepping and weight bearing. Bone density increases

and muscle bulk grow leading to better posture, general endurance and control of trunk and limbs.

- Even wheelchair users and severe restricted persons can enjoy cardiovascular training.
- As wheelchair users become runners - they literally conquer land transforming their perspective of life.
